

# WHITE PRIVILEGE: IT'S CONTINUING IMPACT IN AMERICA

Go a step beyond traditional diversity training and really discover how racism shapes our thinking, communities, institutions and conscious/unconscious behaviors. By understanding what's at the core of racism, participants can begin to unlearn it and dismantle this very real problem in America.

**TIM WISE** *Author & national anti-racist trainer & lecturer*

*Internalized Supremacy: White Privilege – It's legacy, pathology and continuing impact in America*

Sat., June 13, 2009 • 9A – 3:30P

**Areas to be explored include:**

- Examine how privilege operates at both the material and psychological levels to maintain racial inequity.
- Help participants understand how even persons who are liberal and not overtly racist can manifest privilege in everyday operations, within schools, workplaces, and elsewhere.
- Conclude with a discussion of how whites can become better allies to persons of color, and challenge white privilege, both individually and institutionally.

*Suggested readings: White Like Me: Reflections on Race from a Privileged Son & Speaking Treason Fluently: Anti-Racist Reflections from an Angry White Male*

**Fee: \$45 • Pre-registration required**

**Registration form available online at [scarrittbennett.org](http://scarrittbennett.org)**
